

"Rīgas Centrālais termināls" celebrates the tenth anniversary of its activity

21 September 2006

One of the companies within the concern of SIA Jaunrīgas attīstības uzņēmums – SIA Rīgas Centrālais termināls (RCT) marks the tenth anniversary of its operation in September. Since the foundation of the company in 1996, RCT has transshipped over 36.2 million tons of cargoes and is the largest stevedoring companies in the Riga Free port.

Mr. Jānis Lubiņš, director of RCT, points out that the company's main priority is to increase its competitiveness. In order to reach this objective, cargo transshipping process has been optimised, up-to-date cargo transshipping technologies have been introduced, and cooperation with new partners has been developed.

RCT intends to finish the year 2006 with a LVL 10,000,000 turnover or 6.6% more than last year, and to transship over 5.0 million tons of cargo, which makes a 2.2% increase compared with the year 2005.
