

„Jaunrīgas attīstības uzņēmums” Ltd. concludes two cooperation agreements

March 31, 2006

„Jaunrīgas attīstības uzņēmums” Ltd. has entered into a cooperation agreement with the Netherlands Office for Metropolitan Architecture (OMA) on the development of territory planning concept in Riga Port City and an agreement with the UK's enterprise ARUP on the provision of engineering services for the needs of the territory planning concept development. In cooperation with OMA stages of the development process will be defined in the course of the project, starting from the development of territory planning concept up to actual constructing of buildings, also defining types of building uses and density proportions of their layout. Within the framework of the territory planning concept also schemes for the road infrastructure will be drafted and preconditions for long term development defined.
